

HENDON HUB PUBLIC CONSULTATION INVITATION

We would like to invite you to take part in our public consultation on the proposed Hendon Hub project.

This exciting and transformational plan will integrate new academic and civic spaces along The Burroughs in Hendon.

Our aim is to create a development that everyone can be proud of and which will deliver significant new investment into this area. We want to dramatically improve the look and feel of this part of The Burroughs and we are now in a position to present our current proposals and get your valuable feedback.

WHERE CAN I FIND OUT MORE?

As we cannot meet in person due to COVID-19 restrictions, we have organised virtual presentations in the coming weeks so you can hear the project team talk through the proposals and hopefully answer your questions. As the proposals are still developing we may not be able to answer every question at this point but we will try to do so as soon as we can.

IMPORTANT INFORMATION

- We have already identified benefits this project will deliver for local residents and Middlesex University. We are keen to hear your thoughts on this and what further benefits for the local community we could provide as part of this project
- We will be developing new student accommodation in Hendon, although this is not linked to an increase in overall student numbers at Middlesex University
- We want to understand from residents how parking is used in the area, so we can ensure that we re-provide all the parking that is reasonably required
- The project is not predicted to be affected by the short-term impact of the COVID-19 pandemic and will assist with the economic recovery of the borough.
